

RESERVE LIST

The complexity that can be found in 4 base ingredients; water, malt, hops and yeast can sometimes astonish even the most seasoned beer drinker.

Here at Beer DeLuxe we are constantly on the lookout for beers that break convention, push the boundaries, or verge on the perfection of a classic style. This reserve list represents some of the greatest achievements of both local and international brewers. Beers that will challenge your senses; beers that have been cellared for a number of years; and limited-release beers exclusive to this venue will all be found in the following pages.

Unlike wine, which relies heavily on a particular vintage and can be dramatically affected by the elements, beer is a handmade beverage that relies upon the selection of ingredients as well as the skill of the brewer.

When reading this reserve list, be sure to focus on the stories behind the beer. Tasting the beer is merely the final chapter in what is often a long and interesting story.

So whether you are after a beer for a special occasion or you are merely looking to explore some of the greatest beers available in the world today, you are sure to find something that excites you on our Reserve List.

Come into Beer DeLuxe to check out this constantly evolving list of beer gems!
